HUB1- 449.925: IRLP node 4133 / Echolink node 4133

Connected to Echolink NEWENG2 conference (9127) for TIAOS net.

HUB2 - 442.700: IRLP node 4136 / Echolink node 4136

Connected to 220 Reflector 9124 on Tuesdays

927.0625: IRLP 4977 Normally linked to the NE900 Reflector, 9125. Linked to MMRA via "NEW-927.700: IRLP 4978 ENG2" node 9127 for the TIAOS net.

Normally linked together.

Notes: FTL = Full Time Linked (or default state) PTL = Part Time Linked (on schedule or demand)
Note — a repeater can be linked to only one Hub at a time, however the two hubs can also be linked together

President's Corner ~ David Hornbaker, N1DCH

Welcome to HamXposition!

Please stop by and say hello. We are located in the Executive Room (E-5, across from the vendor area and next to the W1A special events station.) While you are there you can renew your membership (memberships expire this month) and sign up for the raffle.

FOX BOX: The MMRA Fox Box will be deployed during the convention. Brush up on your Radio Direction Finding skills and try to locate the box.

VE Exams: There are three license exam sessions at HamXposition: check: <u>HamXposition - License Exam Sessions</u> or contact Ron – WO1E at <u>ve@mmra.org</u> or wo1e@mmra.org. Please remember to bring a State ID, your FRN, and if upgrading an Official copy of your current license.

Membership renewal: All MMRA memberships expire on August 31. Please check your profile and if your membership has expired or will expire soon, please renew. If you will not be attending HamXposition, renewals may be done on the website, or you can mail your renewal to Minuteman Repeater Association, PO Box 669, Stow, MA 01775-0669. Please allow 7 days for us to process your renewal. Please allow 14 days for renewals that are mailed. While you're on the website (https://www.mmra.org) checking your expiration date, please verify your email address.

Tuesday Net: Join us Tuesday nights at 8:00 PM for our weekly <u>Technical Information and Other Stuff</u> (TIaOS) net. There is always a lively discussion on all sorts of HAM issues, including equipment, antennas, software, repeaters, and other stuff. The main purpose is to test our ability to link up the repeaters in case of an emergency or to support an event like the Boston Marathon. You can also join via EchoLink if your radio is a little under the weather. See below for more information.

You can find out more information about how and when the repeaters are linked on the website: (https://www.mmra.org/repeaters/repeater_linking.html).

Meet us in the Executive Room, E-5.

Purchase Raffle Tickets.

Raffle tickets are \$2 each, 3 for \$5, 7 for \$10.

Get 3 if you renew for two years!

The MMRA FOXBOX will be hidden somewhere in the convention area. The BOX periodically transmits on 145.630 Mhz PL 146.2.

If you find the box please leave your call on the notepad in the "mailbox". All who find the box (including Sunday) will be announced in an upcoming MMRA newsletter and at www.mmra.org.The box will be moved ~5PM on Saturday.

Callsigns of those who find the box on Friday/Saturday will be posted in the MMRA booth on Sunday AM.

MMRA VE SESSIONS

Check out https://www.mmra.org/exam.html or email ve@mmra.org

<u>Ask your friends to become a member</u> Just let them know that it is not fully automated. Although they can log into the MMRA website immediately, they need to be manually processed. This could take up to a week.

If you haven't updated your MMRA profile in a while, now is the time!

Go to < MMRA.ORG > and log in to do so.

Previous issues of the MMRA Newsletter are available at: www.mmra.org > Newsletter Archive (on the left)

Heavy Hitters Traffic Net

This net is active on our repeaters Sunday to Friday evenings from 10—11 PM. Active repeaters are:

2m: Mendon (146.61), Quincy (146.67), North Reading (146.715), Boston (146.82), and Marlborough (147.27)

220: Marlborough (223.94), Quincy (224.40), Weston (224.70), and Burlington (224.88),

440: Lowell (442.25), North Reading (446.775), Hopkinton (449.575), and Marlborough (449.925)

NEW ENGLAND SCI-TECH

New England Sci-Tech Inc is a new 501(c)(3) STEM education center, amateur radio training center, and maker space located at 16 Tech Circle, Natick. It is home to New England Amateur Radio Inc (NE1AR) and the youth radio club Sci-Tech Amateur Radio Society (STARS). NE Sci-Tech welcomes memberships and donations via www.NE5ciTech.org or www.NE1AR.org.

Get connected on the MMRA Repeater System ~ Dave Hornbaker N1DCH

What is the best way to get connected on the MMRA repeater system? Try announcing yourself! Just say your call sign followed by "listening". If you want, you can include the last 3 digits of the repeater frequency. For example, "N1DCH listening" or maybe "N1DCH listening on 925", you may very well get a response. Try to connect by announcing yourself several times.

Most of the time, Marlborough Hub1 (449.495) is linked to the following repeaters, Boston (146.820), North Reading (446.775), Mendon (146.610), Lowell (442.250), and Hopkinton (449.575). Remember that when the repeaters are linked, you need to wait two or three seconds after you key up and before you speak. This is especially important on the TlaOS net on Tuesday when most of the repeaters are linked.

You can also link (and delink) the repeaters yourself. See the information you received when you became a member, or check the User Control Codes once you log into the MMRA web.

Try one of the non-linked repeaters too. There are Hams monitoring them as well. For more information on the repeater network and how it is linked at various times, check out <a href="https://mmra.org/repeaters/repea
